

Agricultural Prices

ISSN: 1937-4216

Released May 31, 2011, by the National Agricultural Statistics Service (NASS), Agricultural Statistics Board, United States Department of Agriculture (USDA).

May Farm Prices Received Index Decreased 1 Point

The preliminary All Farm Products Index of Prices Received by Farmers in May, at 174 percent, based on 1990-1992=100, decreased 1 point (0.6 percent) from April. The Crop Index is unchanged but the Livestock Index decreased 3 points (1.9 percent). Producers received lower prices for cattle, corn, eggs, and strawberries and higher prices for hay, broilers, celery, and lettuce. In addition to prices, the overall index is also affected by the seasonal change based on a 3-year average mix of commodities producers sell. Increased monthly marketings of wheat, cantaloupes, broilers, and sweet corn offset decreased marketings of cattle, corn, milk, and soybeans.

The preliminary All Farm Products Index is up 36 points (26 percent) from May 2010. The Food Commodities Index, at 165, decreased 2 points (1.2 percent) from last month but increased 27 points (20 percent) from May 2010.

Prices Paid Index Up 1 Point

The May Index of Prices Paid for Commodities and Services, Interest, Taxes, and Farm Wage Rates (PPITW) is 204 percent of the 1990-1992 average. The index is up 1 point (0.5 percent) from April and 23 points (13 percent) above May 2010. Higher prices in May for hay & forages, complete feeds, nitrogen, and gasoline more than offset lower prices for feeder cattle, feeder pigs, feed grains, and concentrates.

Prices Received by Farmers

The May All Farm Products Index is 174 percent of its 1990-1992 base, down 0.6 percent from the April index but 26 percent above the May 2010 index.

All crops: The May index, at 199, was unchanged from April but 34 percent above May 2010. Index increases for food grains, commercial vegetables, and potatoes & dry beans offset index decreases for feed grains & hay, oilseeds, and cotton.

Food grains: The May index, at 256, is up 4.5 percent from the previous month and 62 percent above a year ago. The May all wheat price, at \$8.19 per bushel, is up 15 cents from April and \$3.86 above May 2010.

Feed grains & hay: The May index, at 259, is down 1.1 percent from last month but 70 percent above a year ago. The corn price, at \$6.15 per bushel, is down 20 cents from last month but \$2.67 above May 2010. The all hay price, at \$169 per ton, is up \$28.00 from April and up \$53.00 from last May. Sorghum grain, at \$10.80 per cwt, is 90 cents below April but \$5.11 above May last year.

Cotton, Upland: The May index, at 133, is down 7.6 percent from April but 21 percent above last year. The May price, at 80.3 cents per pound, is down 7.0 cents from the previous month but 13.7 cents above last May.

Oilseeds: The May index, at 233, is down 0.9 percent from April but 39 percent higher than May 2010. The soybean price, at \$13.00 per bushel, decreased 10 cents from April but is \$3.59 above May 2010.

Fruits & nuts: The May index, at 144, is unchanged from April but 2.1 percent higher than a year ago. Price increases for oranges, lemons, and grapefruit offset price decreases for strawberries, apples, and pears.

Commercial vegetables: The May index, at 170, is up 3.7 percent from last month but 1.2 percent below May 2010. Price increases during May for celery, lettuce, cauliflower, and onions more than offset price declines for tomatoes, asparagus, sweet corn, and cucumbers.

Potatoes & dry beans: The May index, at 190, is up 1.1 percent from last month and 29 percent above May 2010. The all potato price, at \$11.26 per cwt, is up 9 cents from April and up \$2.69 from last May. The all dry bean price, at \$31.70 per cwt, is unchanged from the previous month but \$3.90 above May 2010.

Livestock and products: The May index, at 153, is 1.9 percent below last month but up 17 percent from May 2010. Compared with a year ago, prices are higher for cattle, milk, hogs, eggs, turkeys, and calves. Prices for broilers are down from last year.

Meat animals: The May index, at 154, is down 2.5 percent from last month but 18 percent higher than last year. The May hog price, at \$67.80 per cwt, is up 10 cents from April and \$5.60 higher than a year ago. The May beef cattle price of \$115 per cwt is down \$4.00 from last month but \$20.30 higher than May 2010.

Dairy products: The May index, at 149, is down 0.7 percent from a month ago but 30 percent higher than May last year. The May all milk price of \$19.40 per cwt is down 20 cents from last month but \$4.40 high than May 2010.

Poultry & eggs: The May index, at 155, is down 1.9 percent from April but 3.3 percent above a year ago. The May market egg price, at 62.2 cents per dozen, decreased 26.5 cents from April but is 18.1 cents above May 2010. The May broiler price, at 50.0 cents per pound, is up 1.0 cent from April but 2.0 cents below a year ago. The May turkey price, at 68.2 cents per pound, increased 2.8 cents from the previous month and 12.1 cents from a year earlier.

(NA) Not available.

(S) Insufficient number of reports to establish an estimate.

Beginning January 2006, point of first sale. FOB shipping point for prior years.

Monthly estimates began January 1995.

Includes some processing.

Beef cows and cull dairy cows sold for slaughter.

Animals sold for dairy herd replacement only. Prices available for January, April, July, and October.

⁶ Before deductions for hauling. Includes quality, quantity, and other premiums. Excludes hauling subsidies.

⁷ Live weight equivalent price.

⁸ Mid-month price.

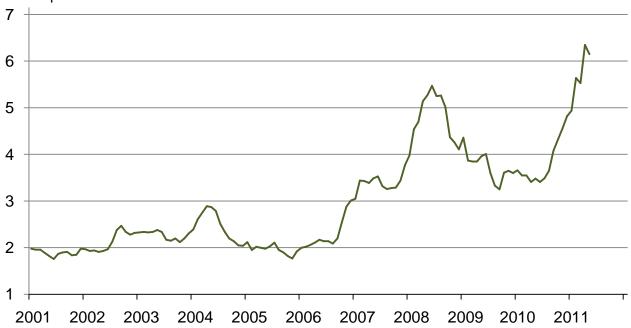

⁹ Also referred to as table eggs.

Live weight equivalent price is used when actual live weight price is not available.

11 Beginning January 2011, price reflects FOB shipping point basis. Prior year price reflects delivered basis.

¹ Equivalent returns at processing plant door. ² Equivalent returns at packinghouse door.

³ Equivalent returns for bulk fruit at first delivery point.

⁴ Equivalent packinghouse-door returns for California, New York (apples only), Oregon (except peaches), and Washington. Price at point of first sale for other states.

⁵ Based on "as sold" prices for fresh fruit in all states.

⁶ Prices In-Shell basis except almonds which are shelled basis.

⁷ FOB shipping point prices.

⁸ Includes some processing.

Reliability of Prices Received Estimates

Definition: Prices received represent sales from producers to first buyers. They include all grades and qualities. The average commodity price from the survey multiplied by the total quantity marketed theoretically should give the total cash receipts for the commodity.

Survey procedures: Primary sales data used to determine grain prices were obtained from probability samples of about 1900 mills and elevators. These procedures ensure that virtually all grain moving into commercial channels has a chance of being included in the survey. Generally, States surveyed account for 90 percent or more of total United States production. Livestock prices are obtained from packers, stockyards, auctions, dealers, and market check data from AMS-USDA, private marketing organizations, and state commodity groups and agencies. Inter-farm sales of grain and livestock are not included since they represent very small percentages of the total marketings. Grain marketed for seed is also excluded. Fruit and vegetable prices are obtained from sample surveys and market check data from AMS-USDA, private marketing organizations, state agencies, and universities.

Summary and estimation procedures: Survey quantities sold are expanded by strata to state levels and used to weight average strata prices to a state average. State prices are then weighted to a United States price based on expanded marketings. Recommendations are prepared by the State Field Offices and reviewed by the Agricultural Statistics Board in Washington, D.C. State recommendations are reviewed for reasonableness with survey data, other States, and recent historic estimates.

Revisions: For most items, the current month's preliminary price represents a 3-5 day period around the 15th of the month. Previous month's prices represent actual dollars received for quantities sold during the entire month. Revisions are published in monthly issues of Agricultural Prices.

Reliability: United States price estimates based on probability surveys generally have a sampling error of less than one percent for the major commodities such as corn, wheat, soybeans, cotton, and rice. Current methods of summarization for non-probability commodities are not designed directly to calculate sampling errors. However, analytical measures approximate the United States relative sampling errors at around five percent. Any nonsampling errors are attributed to such things as the inability to obtain correct information, differences in interpreting questions or definitions, mistakes in coding or processing the data, etc. Efforts are made at each step in the survey process to minimize these nonsampling errors.

Prices Paid by Farmers

The May Index of Prices Paid for Commodities and Services, Interest, Taxes, and Farm Wage Rates (PPITW) at 204 (1990-1992=100), is up 0.5 percent from April 2011 and 13 percent from May 2010.

Production index: The May index, at 216, increased 0.5 percent from last month and 16 percent from last year. Higher prices in May for hay & forages, complete feeds, nitrogen, and gasoline more than offset lower prices for feeder cattle, feeder pigs, feed grains, and concentrates.

Feed: The May index, at 228, increased 2.7 percent from April and 33 percent from last May. Since April, higher prices for hay & forages, complete feeds, and supplements more than offset lower prices for feed grains and concentrates.

Livestock and poultry: The May index, at 151, decreased 5.0 percent from last month but increased 10 percent from last year. Since April, prices are lower for feeder cattle and feeder pigs. The May feeder cattle price, at \$130.20 per cwt, is down \$4.50 from the April price. May feeder pigs averaged \$142.00 per cwt, down \$42.00 from April.

Fertilizer: The May index, at 328, is up 1.5 percent from April and 31 percent above May a year ago. Since April, prices are higher for nitrogen, potash & phosphate, and mixed fertilizer.

Chemicals: The May index, at 144, is unchanged from April and last May. Compared with last month, prices are slightly lower for herbicides and insecticides.

Fuels: The May index, at 387, is up 2.1 percent from a month earlier and 35 percent above May 2010. Compared with last month, prices are higher for gasoline, LP gas, and diesel.

Machinery: The May index, at 239, is unchanged from April but 4.8 percent above last May. Compared with last month, prices are slightly lower for other machinery and self-propelled machinery.

Consumer price index: The April 2011 Consumer Price Index, as issued by the Bureau of Labor Statistics, for all urban consumers (CPIU) increased 0.6 percent before seasonal adjustment to a level of 224.906 (1982-1984=100). The March index is 223.467. For the 12-month period ending in April, the overall index increased 3.2 percent.

Reliability of Prices Paid Estimates

Definition: Prices paid by farmers represent the average costs of inputs purchased by farmers and ranchers to produce agricultural commodities. Conceptually, the average price when multiplied by quantity purchased should equal total producer expenditures for the item.

Survey procedures: The prices paid data are obtained from establishments that sell goods and services to farmers and ranchers. Annually, about 8,500 firms are randomly selected from lists by type of item sold with an average response rate in the range of 75-80 percent. Firms are asked to report the price for the specified item "most commonly bought by farmers" or that was the "volume seller". Approximately 135 items are surveyed each March to represent all production input items purchased. The survey reference period for most items is the five business days centered around the 15th of the month. Separate prices paid surveys are conducted for agricultural chemicals, fuels, feed, fertilizer, machinery, and seed.

Summary and estimation procedures: The annual March Prices Paid Survey is summarized as a nonprobability survey. Average prices reported are aggregated to the region and United States level using weights available from expenditure data and other administrative sources. Price recommendations are prepared by the State Field Offices and Headquarters for review by the Agricultural Statistics Board in Washington, D.C. Also, the change in price level for individual items surveyed are combined to the regional and United States levels, and are published as prices paid indexes referenced to a specific base period. Prices paid indexes for new autos and trucks, building materials, farm supplies, motor supplies, and marketing containers are updated based on price changes measured in selected Bureau of Labor Statistics (BLS) indexes.

Revisions: Any revisions are published in the monthly and in annual issues of Agricultural Prices. The basis for revision must be supported by additional data that directly affect the level of the estimate. More revisions are likely for March when separate prices paid surveys are conducted, in lieu of BLS indexes, by the USDA to measure price change.

Reliability: Current methods of summarization for the March data are not designed directly to calculate sampling errors. However, analytical measures approximate the United States relative sampling errors for major items around 10 percent. Any nonsampling errors are attributed to such things as the inability to obtain correct information, differences in interpreting questions or definitions, mistakes in coding or processing the data, etc. Efforts are made at each step in the survey process to minimize these nonsampling errors.

Program change: Effective January 1, 1995, the National Agricultural Statistics Service updated the weights and changed the construction of its prices paid and received by farmers indexes. A Federal Register Notice dated October 28, 1994 discussed these program modifications.

A 1990-1992 reference and base period replaced the 1977 reference and 1971-1973 base weight period. Five-year moving average weights replaced the current fixed 1971-1973 base period weights. The 1910-1914=100 price indexes, required by statute for computing parity prices, were linked forward based on the changes in the new 1990-1992=100 indexes. The new indexes were constructed by multiplying the ratios of the current prices to the base period prices by the moving average weights (adjusted for seasonal marketing patterns for the prices received indexes).

Information Contacts

Direct general questions to Kevin Barnes, Chief, Environmental, Economics and Demographics Branch at (202) 720-6146. Below are the commodity specialists to contact for additional information.

Crop Prices Received	
Lance Honig, Chief, Crops Branch	(202) 720-2127
Jacqueline Moore, Head, Field Crops Section	(202) 720-2127
Suzanne Avilla – Peanuts, Rice	(202) 720-7688
Bryan Durham – Hay, Oats	(202) 690-3234
Steve Maliszewski – Cotton, Cotton Ginnings, Sorghum	(202) 720-5944
Anthony Prillaman – Corn, Proso Millet, Flaxseed	(202) 720-9526
Nick Schauer – Wheat, Rye	(202) 720-8068
Julie Schmidt – Crop Weather, Barley, Sugar Crops	(202) 720-7621
Travis Thorson – Soybeans, Sunflower, Other Oilseeds	(202) 720-7369
	, ,
Jorge Garcia-Pratts, Head, Fruits, Vegetables and Special Crops Section	(202) 720-2127
Debbie Flippin – Fresh and Processing Vegetables, Onions, Strawberries	
Fred Granja – Apples, Apricots, Cherries, Plums, Prunes, Tobacco	
Erika White – Floriculture, Maple Syrup, Nursery, Tree Nuts	
Chris Hawthorn – Citrus, Coffee, Grapes, Tropical Fruits	
Daphne Schauber – Berries, Cranberries, Potatoes, Sweet Potatoes	
Dan Norris – Austrian Winter Peas, Dry Edible Peas, Lentils, Mints,	
Mushrooms, Peaches, Pears, Wrinkled Seed Peas, Dry Beans	(202) 720-3250
Kim Ritchie – Hops	
	(233) 732 2 133
Livestock Prices Received	(202) 720 2570
Dan Kerestes, Chief, Livestock Branch	(202) /20-35/0
Scott Hollis, Head, Livestock Section	(202) 720 3570
Jason Hardegree - Cattle	` ,
Mike Miller - Milk, Milk Cows	* *
Everett Olbert - Sheep, Lambs, Goats, Wool, Mohair	(202) 720-4731
Doug Bounds - Hogs	(202) 720-3100
Drugo Poogs Hood Poultry and Specialty Commodities Section	(202) 720 2570
Bruce Boess, Head, Poultry and Specialty Commodities Section	
Doug Bounds - Turkeys	
Kim Linonis - Eggs	
Troy Marshall - Broilers, Honey	(202) /20-3244
Indexes, Prices Paid, and Parity Prices	
Kevin Barnes, Chief, Environmental, Economics and	
	(202) 720 6146

Daryl Brinkman - Prices Received Indexes, Parity Prices	` ,
Joe Samson - Grazing Fees	(202) 720-5446
Jennifer Sissom - Prices Paid Indexes, Prices Paid for Feed, Fertilizer,	
Agricultural Chemicals, Seeds, Farm Supplies and Repairs,	
Farm Machinery, Fuels, Feeder Livestock, Poultry Chicks,	(202)
Feed Price Ratios, Autos & Trucks	(202) 690-3229

Access to NASS Reports

For your convenience, you may access NASS reports and products the following ways:

- All reports are available electronically, at no cost, on the NASS web site: http://www.nass.usda.gov
- ➤ Both national and state specific reports are available via a free e-mail subscription. To set-up this free subscription, visit http://www.nass.usda.gov and in the "Receive NASS Updates" box under "Receive reports by Email," click on "National" or "State" to select the reports you would like to receive.
- ➤ Printed reports may be purchased from the National Technical Information Service (NTIS) by calling toll-free (800) 999-6779, or (703) 605-6220 if calling from outside the United States or Canada. Accepted methods of payment are Visa, MasterCard, check, or money order.

For more information on NASS surveys and reports, call the NASS Agricultural Statistics Hotline at (800) 727-9540, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@nass.usda.gov.

The United States Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, political beliefs, genetic information, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Assistant Secretary for Civil Rights, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, S.W., Stop 9410, Washington, DC 20250-9410, or call toll-free at (866) 632-9992 (English) or (800) 877-8339 (TDD) or (866) 377-8642 (English Federal-relay) or (800) 845-6136 (Spanish Federal-relay). USDA is an equal opportunity provider and employer.
